

Measure 141: Primary Open-Angle Glaucoma (POAG): Reduction of Intraocular Pressure (IOP) by 15% or Documentation of a Plan of Care

Reporting Options: Claims, Registry

Quality Domain: Communication and Care Coordination

Description: Percentages of patients aged 18 years and older with a diagnosis of POAG whose glaucoma treatment has not failed (the most recent IOP was reduced by at least 15% from the pre-intervention level) or if the most recent IOP was not reduced by at least 15% from the pre-intervention level, a plan of care was documented within 12 months.

Instructions: This measure is to be reported a minimum of once per reporting period for glaucoma patients seen during the reporting period. It is anticipated that clinicians who provide the primary management of patients with POAG will submit this measure.

Definitions:

Plan of Care – May include: recheck of IOP at specified time, change in therapy, perform additional diagnostic evaluations, monitoring per patient decisions or health system reasons, and/or referral to a specialist.

Plan to Recheck – In the event certain factors do not allow for the IOP to be measured (e.g., patient has an eye infection) but the physician has a plan to measure the IOP at the next visit, the plan of care code should be reported.

Glaucoma Treatment Not Failed – The most recent IOP was reduced by at least 15% in the affected eye or if both eyes were affected, the reduction of at least 15% occurred in both eyes.

Category II Codes:

There are four options for reporting this measure.

3284F Intraocular pressure (IOP) reduced by a value of greater than or equal to 15% from the pre-intervention level

Or

Two Category II codes 0517F and 3285F:

0517F Glaucoma plan of care documented; and

3285F Intraocular pressure (IOP) reduced by a value less than 15% from the pre-

intervention level

Or

Two Category II codes 0517F 8P and 3285F:

0517F 8P Glaucoma plan of care not documented, reason not otherwise specified;
and

3285F Intraocular pressure (IOP) reduced by a value less than 15% from the pre-intervention level

Or

3284F 8P IOP measurement not documented, reason not otherwise specified.

CPT Codes:

92002, 92004, 92012, 92014, 99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215, 99307, 99308, 99309, 99310, 99324, 99325, 99326, 99327, 99328, 99334, 99335, 99336, 99337
