A NOTE FROM DR. ABBOTT

A warm welcome to you, our International Attendees! This AAO 2014 brochure is prepared just for you. We have compiled a list of sessions, symposia and special events that you can read about before arriving in Chicago.

On page 7, you will find program recommendations for international attendees, as chosen by AAO’s Global Alliances Regional Advisors Committee (photo on left). This committee comprises volunteer members from around the world. For this brochure, the Regional Advisors have given their opinions why you might find these events of particular interest.

Last year, 5,132 professional international attendees came to the Academy’s annual meeting, representing 33% of the overall attendees. We want to be sure you have all the information you may need to make your time at the meeting efficient, productive and enjoyable. Once you are there, please be sure to stop by the International Center (page 5), a dedicated lounge for you to meet with colleagues, have a cup of coffee, check email and relax.

We are proud to host AAO 2014 in conjunction with the European Society of Ophthalmology, and look forward to welcoming all of you to Chicago. If you have any questions about your visit to Chicago, please email the Academy at international@aao.org.

Welcome to AAO 2014

A NOTE FROM DR. SEREGARD

As president of the European Society of Ophthalmology (SOE), I am delighted that AAO 2014 is being held in conjunction with the SOE. I hope you will be able to attend one of the “View Across the Pond” sessions, in which we will focus on how the practice of ophthalmology differs between the United States and Europe in cataract and IOL practices and the various approaches to the diagnosis and management of diseases involving the retina and cornea.

If those sessions do not fit your schedule, there are a number of other courses sponsored by the SOE, such as Personalized Cataract Surgery and Global Trends in Retina, just to name a few examples.

I look forward to AAO 2014 and invite you to SOE 2015 in Vienna, held in conjunction with AAO.

Stefan Seregard, MD, PhD
President, European Society of Ophthalmology
