

Program Schedule

THURSDAY, MAY 29, 2008

8:30 AM	CONTINENTAL BREAKFAST and EXHIBITS	
9:00 AM	Opening Remarks: CMMCR Welcome	Ramon Naranjo-Tackman MD*
9:03 AM	Opening Remarks: ALCRS Welcome	Jose M Vargas MD
9:06 AM	Opening Remarks: ISRS/AAO Welcome	Steven E Wilson MD*

Section I: Phakic IOLs

Moderators: Marguerite B McDonald MD*, Ana Lilia Perez-Balbuena MD

9:10 AM	Keynote: Currently Available Phakic IOLs for Patients	Arturo S Chayet MD*	1
9:20 AM	Visian Toric ICL: Three-Year Follow-Up	Arturo Gomez Bastar MD	1
9:28 AM	Toric IOL in a Patient With Keratoconus	Alejandro Navas Perez MD	2
9:36 AM	Kelman Duet Phakic IOL for the Correction of High Stable Myopia	Jose M Vargas MD	2
9:44 AM	Experience of Implant Artisan/Artiflex Phakic Lens in the Ramón Pando Ferrer Cuban Ophthalmology Institute	Eneida de la Perez MD	2
9:52 AM	Bioptics with Verisyze	Gustavo E Tamayo MD*	3
10:00 AM	Determination of Corneal Hysteresis Pre- and Post-Intracorneal Ring	Miguel A Quiroz Gonzalez MD	3
10:05 AM	Implantable Collamer Lens in a Patient With Pseudophakic High Myopia	Alejandro Navas Perez MD	4

Section II: Presbyopia

Moderators: Ramon Naranjo-Tackman MD*, Gustavo Tamayo MD*

10:10 AM	Keynote: Monocular Implantation of Multifocal IOL	Daniel A Badoza MD	5
10:20 AM	Corneal Multifocality: An Option to Treat Presbyopia	Gustavo E Tamayo MD*	5
10:28 AM	Pseudoaccommodative Advanced Surface Ablation Updated	Roberto Cantu MD	6
10:36 AM	Can We Really Recommend Corneal Photoablation to Treat Presbyopia?	Ricardo Trigo MD	6
10:44 AM	LASIK in Presbyopia	Klaus N Ditzel MD	7
10:52 AM	Scleral Procedures for Presbyopia	TBA	7
11:00 AM	REFRESHMENT BREAK and EXHIBITS		

Section III: Accommodating IOLs

Moderators: Renato Ambrosio Jr MD*, Jorge E Valdez-Garcia MD

11:50 AM	Keynote: Dual Optic IOL	Ivan Ossma-Gomez MD	8
12:00 PM	Synchrony Dual System and Crystalens: Face to Face	Carlos Verges MD PhD*	8
12:08 PM	The Development of Synthetic Keratopaquia for Presbyopia: Biovision InVue Presbyopic Inlay Results	Francisco Sanchez Leon MD	8
12:16 PM	Accommodative IOLs Update	Jose M Vargas MD	8
12:24 PM	TBA	Mateo De Regil-Romero MD	8

* Indicates that the presenter has a financial relationship.
No asterisk indicates that the presenter has no financial relationship.

12:32 PM	TBA		8
12:40 PM	Personal Experience With Tesk-Clear	Jose M Vargas, MD	

Section IV: Surgical Complications – Cataract

Moderators: Jose A Claros MD, Jose M Vargas, MD

12:45 PM	Keynote: Long Term Survival of Implanted “Specialized IOL”	Abelardo A Rodriguez MD	9
12:55 PM	TBA	Jose A Claros MD	9
1:03 PM	Anterior Capsular Tear Extending to the Posterior Capsule in Intumescent Cataract	Daniel A Badoza MD	9
1:11 PM	Why Asphericity and Multifocality	Mateo De Regil-Romero MD	9
1:19 PM	Phaco After Corneal Phakic Lens Procedures	Ramon Naranjo-Tackman MD*	9
1:27 PM	Management of Posteriorly Dislocated IOL in Vitrectomized Eyes	Saleh A Al-Amro MD	9
1:32 PM	LASIK-LASEK Used on Refractive Error After Cataract Surgery	Juan Raul Hernandez MD	10
1:37 PM	Closing Remarks and Exhibits (open until 2:00 PM)		
2:00 PM	Swimming With the Experts		
6:00 PM	Welcome Reception		

FRIDAY, MAY 30, 2008

8:30 AM	CONTINENTAL BREAKFAST and EXHIBITS		
9:00 AM	Opening Remarks	Ramon Naranjo-Tackman MD*	
		Jose M Vargas MD*	
		Steven E Wilson MD*	

Section V: Femtosecond Lasers

Moderators: Ronald R Krueger MD*, Manuel Ramirez MD

9:05 AM	Keynote: Nonrefractive Applications	Ramon Naranjo-Tackman MD*	11
9:15 AM	Intracorneal Rings With Femtosecond Laser or Keratoplasty and Femtosecond Laser	Leon Grupenmacher MD	11
9:23 AM	Comparison of High-Order Aberration Changes Between Wavefront-Guided IntraLASIK and MK-LASIK in High Myopia Patients	David Chao-Kai Chang MD MPH	11
9:31 AM	LASIK-Induced Dry Eye With the Microkeratome vs. Femtosecond LASIK	Steven E Wilson MD*	12
9:39 AM	In Vivo At the Cell Level After Femtosecond Surgical Laser	Manuel Ramirez MD	
9:47 AM	Dry Eye Induced by LASIK With Nasal Flap vs. Superior	Abel Cebrera Martinez MD	13

Section VI: Surgical Complications – Refractive

Moderators: Yaron S Rabinowitz MD*, Raul Suarez MD

9:52 AM	Keynote: Treating the Complications of Refractive Surgery – An Overview	Marguerite B McDonald MD*	14
---------	---	---------------------------	----

* Indicates that the presenter has a financial relationship.
No asterisk indicates that the presenter has no financial relationship.

10:02 AM	Postoperative Complications in Phakic Artisan Lens	Rene Moreno MD	15
10:10 AM	Post LASIK Ectasia	Maria Eugenia Anaya MD	15
10:18 AM	Aspheric Ablation vs. Conventional Ablation in Myopic LASIK	Maria Jose Cosentino MD	15
10:26 AM	LASIK Flap Striae	Yaron S Rabinowitz MD*	16
10:34 AM	Changes in Corneal Hysteresis After Clear Corneal Cataract Surgery	Jeronimo Alvarez MD	16
10:39 AM	Endothelial Cell Count Before and One Year After Artisan Phakic IOL Implantation: Comparison With ICL	Eric Y Oregon Miranda MD	16
10:44 AM	Difficult and Interesting Refractive Surgery Cases	Klaus N Ditzen MD	17
10:49 AM	Sandwiched LASIK Flap by the Epithelium	Junki Sawai MD	18
10:54 AM	REFRESHMENT BREAK and EXHIBITS		

Section VII: Caring for the Complicated Post-refractive Patient

Moderators: Maria Regina C Chalita MD, Steven E Wilson MD*

11:50 AM	Keynote: Ectasia	Maria Regina C Chalita MD	19
12:00 PM	My Patient Has PRK Haze! Now What?	Steven E Wilson MD*	19
12:08 PM	Intacs Intracorneal Ring Segments for Treatment of Post-LASIK Ectasia	Thomas E Clinch MD*	19
12:16 PM	LASIK and Dry Eye: New Drugs, New Plugs	Marguerite B McDonald MD*	20
12:24 PM	Suture Techniques in Corneal Transplant	Manuel Ramirez MD	
12:32 PM	Using New Technology to Evaluate Post-Refractive, Complicated Cases	Ronald R Krueger MD*	20
12:40 PM	Confocal Microscopy in Patients Operated With LASIK and LASEK	Sorania Rodriguez Sanchez MD	20
12:45 PM	Refractive Surgery to the Rescue	Arun C Gulani MD	21

Section VIII: Now What? How to Deal With the Future

Moderators: Cesar C Carriazo Escaf MD*, Stephen D Klyce PhD*

12:50 PM	Keynote: Crosslinking – When to Use It? Does It Work?	Ronald R Krueger MD*	22
1:00 PM	How To Best Cover Patients for Microbial Infection	Virginia Vanzzini MD	
1:08 PM	When Does PRK Make Sense in Keratoconus Eyes?	Yaron S Rabinowitz MD*	22
1:16 PM	Which Wavefront Methods Are Best for Highly Aberrated Eyes?	Stephen D Klyce PhD*	22
1:24 PM	A New Approach to Combined Cataract and Glaucoma: An Ab Interno Approach	Carlos Buznego MD*	23
1:32 PM	Aspheric Ablation Profiles	Maria Jose Cosentino MD	23
1:40 PM	The Role of Iris Recognition in LASIK for Correction of Myopic Astigmatism	Elizabeth P Shen MD	24
1:45 PM	Queratoplastia Lamelar Anterior Asistida con Excimer Láser	Raúl Gabriel Pérez MD	25
1:50 PM	Excimer Laser-Assisted Penetrating Keratoplasty	Cesar C Carriazo Escaf MD*	25
1:55 PM	Corneal Tomographic and Biomechanics of Very Early Keratoconus	Renato Ambrosio Jr MD*	26

* Indicates that the presenter has a financial relationship.

No asterisk indicates that the presenter has no financial relationship.

2:00 PM	Closing Remarks
7:30 PM	GALA DINNER and DANCE

SATURDAY, MAY 31, 2008

9:30 AM	CONTINENTAL BREAKFAST and EXHIBITS
---------	------------------------------------

10:00 AM	Opening Remarks	Ramon Naranjo-Tackman MD*
		Jose M Vargas MD
		Steven E Wilson MD*

Section IX: Hot, Hotter, Hottest – Late Breaking News

Moderators: Ronald R Krueger MD*, Marguerite B McDonald MD*

10:05 AM	Corneal Tomography and Biomechanics: New Concepts for Screening for Ectasia and Its Susceptibility	Renato Ambrosio Jr MD*	27
10:10 AM	Corneal Customized Treatment in Postoperative Pachymetry-Assisted Laser Keratoplasty	Cesar C Carriazo Escaf MD*	27
10:15 AM	Femtosecond Lasers for Complicated Photorefractive Surgery	Ramon Naranjo-Tackman MD*	28
10:20 AM	Ocular Surface Reconstruction	Jose M Vargas MD	28
10:25 AM	TBA		
10:30 AM	New Keraring Segments and IntraLase Nomogram for Keratoconus and Ectasia	Francisco Sanchez Leon MD	28
10:35 AM	Comparison of Flap-Discarded epiLASIK and PRK Results With a Prospective, Comparative Matched Study	Zoltan Nagy MD	28
10:40 AM	Wavefront Technology Improves Vision by Reducing Aberrations in Progressive Lenses	Marguerite B McDonald MD*	29
10:45 AM	New Color, New Disaster	Fernando Castanera MD	29
10:50 AM	Prospective, Nonrandomized Comparison of EpiLASIK With PRK and Thin Flap LASIK	Carlos Verges MD PhD*	30
10:55 AM	Refractive Changes in Patients With Keratoconus Operated With Ferrara Rings: Three-Year Follow-Up	Francisco Segura-Lozano MD	30
11:00 AM	Ocular Imaging in the Diagnosis and Management of Anterior Segment Pathology	Roxana Ursea MD	31
11:05 AM	Results of Corneal Ablation and Aberrometry With Tecnolas 217- Z100 Excimer Laser After Cycloplegic Refraction	Luis Antonio Perez Osorio MD	31
11:10 AM	High-Order Aberrations: Three-Year Follow-Up for PRK, EpiLASIK, and LASIK	Crisanti Stangogiannis MD	32
11:15 AM	High-Order Aberrations: Are We Sure What We Are Measuring and Treating?	Roberto Cantu MD	33
11:20 AM	Misdiagnosis of Glaucoma After Refractive Surgery	Jesus Jimenez Roman MD	33
11:25 AM	Closing Remarks	Ramon Naranjo-Tackman MD*	
		Jose M Vargas MD*	
		Steven E Wilson MD*	

* Indicates that the presenter has a financial relationship.
No asterisk indicates that the presenter has no financial relationship.
