### DESIGN NOTES

As you design your advertisement, be aware of the following:

- Your advertisement must not resemble *EyeNet* content. We will review your materials to ensure that text and visual elements are unlikely to cause reader confusion as to whether the content is editorial or advertising. For instance: Avoid Gotham or Arial font families or any font that resembles Gotham or Arial.
- The top of the page will contain required elements from the Academy. These include:
  - A breadcrumb that includes: “Spotlight Advertisement”
  - The word “Advertisement” immediately above your content.
- Academy will have language at the bottom of the page regarding advertising.

### MATERIALS

You provide:

- **PDF mock-up:** PDF with your official desired layout for the page. We will make a good-faith effort to mimic your mock-up, but we may be subject to constraints.
- **All raw materials:** Provide code for video embed (also, see note below), as well as graphics, logos, and copy (in Word).
- **Review:** Let us know the dates and/or duration of any review that you may need prior to launch, and we will make a good-faith effort to accommodate.
- **Font:** You will have informed us of your font at ad close.

**Note that video must be hosted on your channel and must be close-captioned.** Specifications:

- **Preferred runtime:** 3 minutes or less
- **Ratio:** Widescreen (16:9) aspect ratio.
- **Audio:** All videos should be accompanied by a clear voice-over narration that corresponds with the footage and must be close-captioned.
- Musical soundtracks are highly discouraged.
- **Copyrighted material:** You are responsible for securing permission to use any included images, video, or audio in your submitted work.

**Note:** Content and design are subject to review and approval by the American Academy of Ophthalmology and must comply with applicable regulatory requirements.
