Dr. Flynn, these PowerPoints are the single best resource in all of ophthalmology education. I can't thank you enough for your time and effort.

Mark Hankins, PGY5 Glaucoma Fellow, University of South Florida

I'm in my second year of ophthalmology specialty training in the UK (equivalent to PGY2/early residency). Just wanted to say a big thank you for the time and effort you have taken to make the presentations uploaded to the OKAP prep part of the AAO website. The PowerPoints are so well made - the format makes it so conducive to learning. I stumbled upon them whilst looking for resources to help with the UK equivalent written exam and am so glad I did - I haven't come across anything like this in a while! I'm using them fervently - they're absolutely brilliant.

T.S, Resident, Cambridge University Hospitals, U.K.

I am a fifth-year ophthalmology resident at Univ of Ottawa, Canada.

I have been preparing for my Royal College exam for the past few months and would like to THANK YOU for all your work on preparing the presentations. I and my colleagues have been using these slides for our preparation and have nothing but the best things to say about them.

They are by far, one of the best review lectures/presentations I have seen ever. The format is really engaging, interactive, with all high yield topics presented in an amazing way. The information is current, concise; and the presentation really helps to understand and retain content.

Once again, thank you very much for your hard work and being a role model for selfless teaching for our generation. Much appreciated!

Shveta Bali, Resident, University of Ottawa, Canada

I can't tell you enough how amazing your lectures are. I've introduced them to our residents and we are loving them. The lectures have been a tremendous help for our residents in preparing for OKAPS. Especially in the middle of COVID, as we transitioned to virtual learning, the lectures could not have been more perfectly timed. I especially love how Dr. Flynn continues to update them and make them better.

CPT G. Bryant Giles, DO, Chief Resident, Brooke Army Medical Center, San Antonio, TX

Dr. Flynn's PowerPoints really teach you the content of ophthalmology, which is much more helpful than memorizing ophthoquestions. I just went through all his PowerPoints for the American Board of Ophthalmology Written Qualifying Exam and passed the first time around. I really credit his entertaining teaching style, the repetition, and tying concepts together across different fields of ophthalmology. Excellent resource that I recommend all the residents for OKAPs!

Eileen L Chang, Fellow, Yale University

Thanks for all these OKAPs Study Presentation PowerPoints! One of my upper levels sent them out a couple weeks ago and my whole program can't stop talking about how amazingly helpful they are!

Madison D., Resident, University of Florida

Thank you for this really fantastic resource, I've found your slides to be extremely well made and helpful for reviewing material, I wish I had found them earlier in my training!

Nicholas Apostolopoulos, Resident, Yale University

I've used Dr. Flynn's slide sets to prepare for the OKAP exam each year and still find it to be one of the best resources available to residents. Each presentation is comprehensive, well-organized, interactive and efficient.

Michael DeCoursey, Resident, University at Buffalo

I am so happy to have stumbled upon these PowerPoints, and wanted to send some feedback and tell you thank you for providing these fantastic resources. The question-based format makes it interactive and fun to go through, and your humor makes the dry topics much more engaging.

Jacob Abou-Hanna, Resident, University of Wisconsin-Madison

Thank you for your wonderful OKAP/Board Review slides. They're an amazing resource and they often make me laugh out loud.

I appreciate your generosity in sharing these. I cannot imagine how long they took to synthesize and create. Thank you so much!

Allison Coombs, Resident, Tufts, Boston

I genuinely just wanted to say thank you for the PowerPoints you have created on the AAO website. I was desperate to find a resource that didn't just flood my reading time with factoids. The presentations flow in a way that brings a ton of sense into every topic that is reviewed.

Incredible work and appreciated more than you know.

The OKAP/Board Review PowerPoints have been a great resource for presenting numerous topics in ophthalmology in a way that is easily digestible. The organization of the presentations are methodical in connecting various topics, repeating high-yield information and providing useful asides which give them a flow that goes beyond typical textbook reading. The knowledge from these presentations has helped me not only with preparing for exams, but also in understanding how to better treat my patients as I continue in my training.

Adil Ahmed, Resident, St. John's Episcopal Hospital, New York

Thank you so much for your contribution of these wonderful slide sets! I am a new attending with a strong interest in teaching, and you are setting a great example of teaching (and learning) examples. Thanks again!

Gordon S Crabtree, MD, Vitreoretinal Surgery Fellow, University of Wisconsin

I have been a huge fan of your OKAP PowerPoints, which have been incredibly helpful. They distill knowledge and integrate high yield concepts in a way that just makes so much sense. I strongly recommend them! Thank you for your time and for providing an awesome learning resource to the world of Ophthalmology.

George Talany, 4th year ophthalmology resident, Dalhousie University, Halifax, NS, Canada

My name is Jane and I am one of the Yale PGY-2 ophthalmology residents. I found your PowerPoint slides to be incredibly helpful and have enjoyed going through them! I can't imagine how much time you must have spent to create each one. I found your slides to be helpful in explaining the pathophysiology of the diseases we see in clinic/on call, I especially like the Q&A format as well as the compare & contrast tables/figures as I find it drives home the important points.

Jane Zhu, Resident, Yale University, USA

I am an Ophthalmologist with 40 yrs of practice. I am planning to become a volunteer examiner for the ABO. I found your course on the AAO website, and wanted to thank you personally for all of the work you did in compiling the course. I have been using it as a refresher, in preparation for the exam that I need to take to get examiner status. Best wishes and thanks again.

Todd A Lekowitz, MD, Phoenix, AZ

I have been using your slide-sets and have found them extremely helpful. They have been a great resource for us and I have certainly benefited from repeatedly reviewing them! Thank you for this wonderful resource!

Rajvi Mehta, Illinois Eye and Ear Infirmary, Chicago, USA

Awesome slide decks. I could not be more thankful that you've made an interactive way to learn this material. I can't imagine how much time it took.

Russel D., Resident, Georgetown University

I am a resident ophthalmologist from Somalia. I have found your presentations on AAO website very useful, thank you for your time!

Adam Mohamed, Resident, Jazeera University, Somalia

I am Dr Chraibi from Morocco. I would like to thank for the great job you did for the AAO OKAP, your slides are very informative.

Fouad Chraibi, Attending, Ophthalmology Department, University Hospital Hassan II, Morocco

I'm a PGY3 ophthalmology resident at Medical College of Virginia.

I just found the AAO OKAPS presentations, and wanted to say thank you for making these available. They're an excellent review! These presentations are incredibly helpful; thank you again for all your work on them!

Timothy Holley, Resident, Virginia Commonwealth University

I wanted to thank you for sharing an awesome comprehensive review on OKAP. It really helped me with organizing my study plan as your chapters were divided by pathologies.

C.S. Lee, Resident

Thank you for these presentations. They have helped me a lot honestly. You have made my studying so much easier and enjoyable at the same time. More power to you.

Jonna Cenica, M.D., Jr. Consultant, Ospital ng Makati, Philippines

I just wanted to say thank you so much for these phenomenal review slides. They're truly an amazing learning tool. Truly, I want to thank you for enhancing our residency learning.

Tirth Shah, Resident, University of Iowa Hospitals and Clinics

I study for board exam and your review ppt presentations at AAO website are phenomenal! Thank you so much for making it public.

A.O., Attending Ophthalmologist

Thank you for your contribution to the OKAP section of the AAO website, they have proven incredibly useful to myself and colleagues alike.

Valentin Dinu, Specialist, "Carol Davila" University of Medicine and Pharmacy, Bucharest, Romania

I just wanted to thank you for putting together the OKAP and board review PowerPoints on the AAO website. They are absolutely phenomenal, and I can tell you spent a lot of time on there to make them both informative and entertaining. It seriously is an incredible resource.

Shehzad Batliwala, Resident, Dean McGee Eye Institute, Oklahoma City
