

# Q

- **Pediatric Corneal Epithelial Trauma**

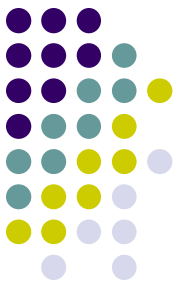

- *Corneal abrasion*

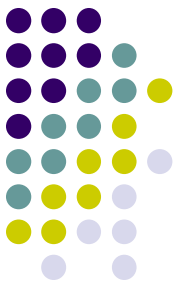

- **Don't** bother with common therapeutic maneuver

# A

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - **Don't** bother with **patching**

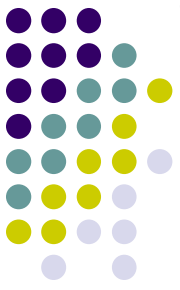

# Q

## ● Pediatric Corneal Epithelial Trauma

### ● *Corneal abrasion*

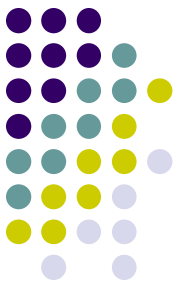

● Don't bother with patching

● Do use  and

# A

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - Don't bother with patching
    - Do use cycloplegics and ointment

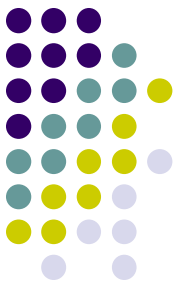

# Q

## ● Pediatric Corneal Epithelial Trauma

- *Corneal abrasion*
  - Don't bother with patching
  - Do use cycloplegics and ointment

#1 cause of ocular surface **thermal** injury in childhood

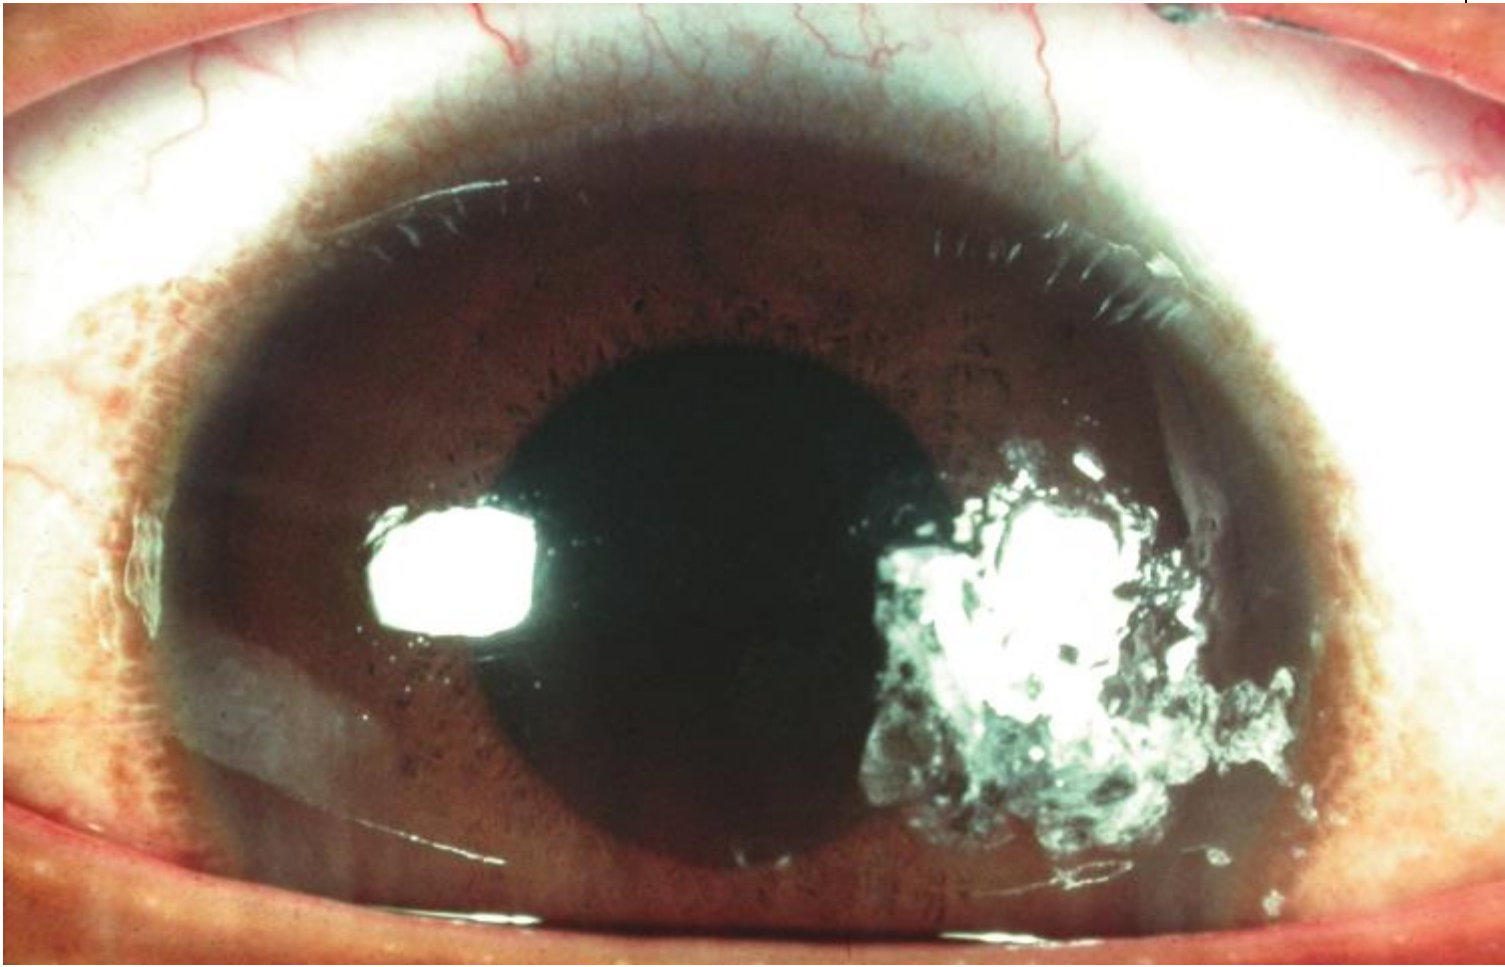

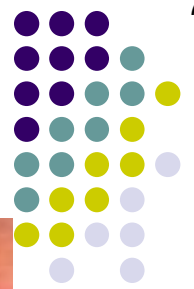

# A

## ● Pediatric Corneal Epithelial Trauma

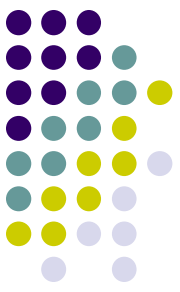

- *Corneal abrasion*
  - Don't bother with patching
  - Do use cycloplegics and ointment

● *Corneal cigarette burns*

#1 cause of ocular surface **thermal** injury in childhood

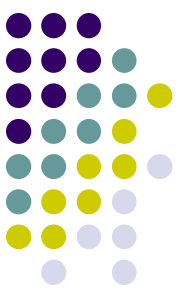

Corneal cig burn

# Q

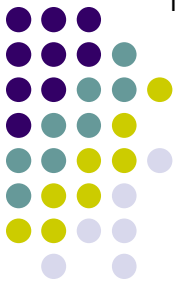

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - Don't bother with **patching**
    - Do use **cycloplegics** and **ointment**
  - *Corneal cigarette burns*
    - #1 cause of ocular surface **thermal** injury in childhood
    - Usually **is/isn't a** manifestation of abuse

# A

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - Don't bother with **patching**
    - Do use **cycloplegics** and **ointment**
  - *Corneal cigarette burns*
    - #1 cause of ocular surface **thermal** injury in childhood
    - Usually **not** manifestation of abuse

# Q

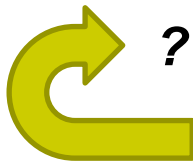

## ● Pediatric Corneal Epithelial Trauma

### ● *Corneal abrasion*

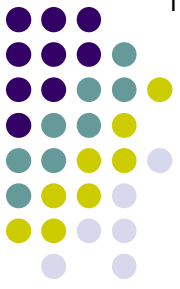

- Don't bother with patching
- Do use cycloplegics and ointment

### ● *Corneal cigarette burns*

- #1 cause of ocular surface thermal injury in childhood
- Usually **not** manifestation of abuse

*If not intentional, how is it that corneal cig burns can be common in childhood?*

# A

## ● Pediatric Corneal Epithelial Trauma

### ● *Corneal abrasion*

- Don't bother with patching
- Do use cycloplegics and ointment

### ● *Corneal cigarette burns*

- #1 cause of ocular surface **thermal** injury in childhood
- Usually **not** manifestation of abuse

Toddler is perfect height to run into a cigarette

*If not intentional, how is it that corneal cig burns can be common in childhood?*

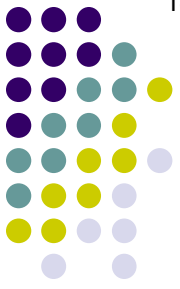

# Q

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - Don't bother with **patching**
    - Do use **cycloplegics** and **ointment**
  - *Corneal cigarette burns*
    - #1 cause of ocular surface **thermal** injury in childhood
    - Usually **not** manifestation of abuse
      - Toddler is perfect height to run into a cigarette
    - Treat like **common eye injury**

# A

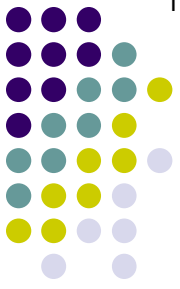

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - Don't bother with **patching**
    - Do use **cycloplegics** and **ointment**
  - *Corneal cigarette burns*
    - #1 cause of ocular surface **thermal** injury in childhood
    - Usually **not** manifestation of abuse
      - Toddler is perfect height to run into a cigarette
    - Treat like **mechanical abrasion**

# Q

## ● Pediatric Corneal Epithelial Trauma

- *Corneal abrasion*
  - Don't bother with patching
  - Do use cycloplegics and ointment
- *Corneal cigarette burns*
  - #1 cause of ocular surface **thermal** injury in childhood
  - Usually *not* manifestation of abuse
    - Toddler is perfect height to run into a cigarette
  - Treat like mechanical abrasion
  - Typically heals fast vs slow and with vs without scarring

# A

- **Pediatric Corneal Epithelial Trauma**
  - *Corneal abrasion*
    - Don't bother with **patching**
    - Do use **cycloplegics** and **ointment**
  - *Corneal cigarette burns*
    - #1 cause of ocular surface **thermal** injury in childhood
    - Usually **not** manifestation of abuse
      - Toddler is perfect height to run into a cigarette
    - Treat like **mechanical abrasion**
    - Typically heals **rapidly** and **w/o** scarring
