In a private contract, the Medicare beneficiary agrees to give up Medicare payment for services furnished by the physician/practitioner and to pay the physician/practitioner with regard to any limits that would otherwise apply to what the physician/practitioner could charge.

- State that the beneficiary or his or her legal representative understands that Medicare payment will not be made for any items or services furnished by the physician or practitioner that would have otherwise been covered by Medicare if there was no private contract and a proper Medicare claim had been submitted.
- State that the beneficiary or his or her legal representative enters into the contract with the knowledge that he or she has the right to obtain Medicare-covered items and services from physicians and practitioners who have not opted out of Medicare, and that the beneficiary is not compelled to enter into private contracts that apply to other Medicare-covered services furnished by other physicians or practitioners who have not opted out.
- State the expected or known effective date and expected or known expiration date of the opt-out period.
- State that the beneficiary or his or her legal representative understands that Medigap plans do not, and that other supplemental plans may elect not to, make payments for items and services not paid for by Medicare.

Please note: You are required to have your patients sign a new contract every two years.

Be retained (original signatures of both parties required) by the physician/practitioner for the duration of the opt out period.

Be made available to CMS upon request.

Be provided (a photocopy is permissible) to the beneficiary or to his or legal representative before items or services are furnished to the beneficiary under the terms of the contract.
