

## **SAMPLE LEARNING PORTFOLIO**

### **Patient Care**

- Case/procedure logs: documentation of minimum numbers and comment on areas of strength or concern (comment if there are any areas of specific concern, but you do not need to list all your surgical numbers as they are already in your file)
- Focused observation of clinical encounter: OCEX
- End-of-rotation faculty evaluations
- Surgical Checklist or other documentation of surgical competence

### **Medical Knowledge**

- OKAP scores
- Conferences and courses/meetings attended
- Self-assessment modules or review questions completed

### **Practice-Based Learning and Improvement**

- Publications (Peer reviewed journals)
- Publications (including internet, non-peer reviewed, etc)
- Publications (Submitted or in preparation)
- Abstracts
- Research Projects in Progress
- Residents Day Project
- Case Presentations (including Grand Rounds, M&M, conference cases, etc.) or Lectures
- Journal Club presentation
- Semiannual resident self-assessment and learning plan
- Summary of Literature Review related to specific patient questions

### **Interpersonal and Communication Skills**

- Medical record review assessment
- Summary of 360 evaluations

### **Professionalism**

- Any Community Service Projects in which you have participated
- Medical Organization memberships and activities
- Rotation/faculty evaluations completed on time and returned
- Summary of 360 evaluations

### **Systems-Based Practice**

- A significant stressful event/area of conflict and how you managed it
- Documentation of a learning activity that involves developing a solution to a systems' problem (e.g., performance improvement activity)
- Participation on a root cause analysis team or participation on a hospital committee
