Patient-Reported Outcomes with LASIK Symptoms and Satisfaction (PROWL-SS)

PROWL-SS Steward - H. Dunbar Hoskins Jr MD Center for Quality Eye Care, American Academy of Ophthalmology

The Academy acknowledges the contributions of Ron D. Hays and Karen L. Spritzer (UCLA Department of Medicine) in developing and evaluating this instrument.

The Academy also acknowledges the dedicated efforts of Malvina Eydelman, MD (Director, Office of Health Technology 1) and Michelle Tarver, MD, PhD, (Deputy Director, Office of Strategic Partnerships and Technology Innovation, Program Director for Patient Science, Digital Health Center of Excellence) at the FDA Center for Devices and Radiological Health in guiding the creation of the instrument and generation of the evidence supporting it

The LASIK Quality of Life Collaboration Project Members include the following: Study Group: Charles "Pat" Wilkinson, MD, Study director (Greater Baltimore Medical Center), Frederick Ferris, III, MD, Co-Primary Investigator, (National Eye Institute), Malvina Eydelman, MD, Co-Primary Investigator, (US Food and Drug Administration), Michelle E. Tarver, MD, PhD (US Food and Drug Administration), Eva Rorer, MD (US Food and Drug Administration), Rachel Bishop, MD (National Eye Institute), Gerry Gray, PhD (US Food and Drug Administration), Danica Marinac-Dabic, MD, PhD (US Food and Drug Administration), Larry Park, MD (US Food and Drug Administration), Robert Sperduto, MD (The Emmes Corporation), and Susan Vitale, PhD (National Eye Institute). Steering Committee: Charles "Pat" Wilkinson, MD (chair, Greater Baltimore Medical Center), Barbara Berney (patient representative), Matthew Caldwell, MD (US Air Force), Janine Clayton, MD (National Institutes of Health), Barbara Hawkins, PhD (Johns Hopkins Wilmer Eye Institute), Donald Patrick, PhD, MSPH (University of Washington), Donna Peterson (patient representative), Michael Raizman, MD (Ophthalmic Consultants of Boston, Inc, Tufts University), Christopher Rapuano, MD (Wills Eye Hospital and Jefferson Medical College), Michael Twa, OD, PhD (University of Houston), and Jayne Weiss, MD (Louisiana State University Eye Center). Clinical Investigators: Elizabeth M. Hofmeister, MD (Navy Medical Center San Diego), K. Scot Bower, MD, FACS (Wilmer Eye Institute), Daniel Durrie, MD (Durrie Vision), Edward Manche, MD (Stanford University School of Medicine), Vance Thompson, MD (Vance Thompson Vision/Sanford Health), and William Zeh, MD (20/20 Institute). Data Acquisition/Analysis: Steve Reise, PhD (University of California, Los Angeles), Karen Spritzer, BS (University of California, Los Angeles), Donna Murdoch, PhD (Navy Medical Center San Diego), and Erik Dekelbaum (US Food and Drug Administration)...

Note: The PROWL-SS was administered by web in the original studies.

Qualified Context of Use:

https://www.fda.gov/media/150166/download?utm_medium=email&utm_source=govdelivery

The paper and electronic versions of the PROWL-SS can be used to assess satisfaction with vision and the existence, bothersomeness and impact on usual activities in the last 7 days of four visual symptoms – double images (8 items), glare (8 items), halos (8 items) and starbursts (8 items). The measure is designed to be used in patients undergoing LASIK surgery who mee the following conditions: 21 and older who speak and read English fluently, have not previously received any form of refractive surgery; are determined to be good candidates for LASIK based on their surgeon's assessment of medical and ophthalmic health, cognitive function, and physical function and social function; are undergoing the surgery for treatment of myopia, hyperopia and/or astigmatism; are undergoing the surgery for treatment of myopia, hyperopia and/or astigmatism; and are targeted to get a refraction of bilateral emmetropia or slight hyperopia (+0.25 Diopters). The four symptom scores may be used at baseline and post-surgery as secondary or additional safety assessment in clinical studies or observational studies to evaluate descriptively the subjects' visual perception. The satisfaction with vision scale may be used at baseline and post-surgery as an additional effectiveness endpoint to evaluate descriptively changes in satisfaction from baseline.

Note: While this questionnaire content covers symptoms and satisfaction, it would be important to measure dry eye symptoms and driving function, given that they have been found to be relevant to patients undergoing LASIK surgery.

This document provides the PROWL-SS questions for information purposes. There are six scores, each on a 0-100 possible range (0 = worse, 100 = best possible) (See Scoring Guide)

Satisfaction with Vision:

Double-Image:

Glare:

Halos:

Question 1

Questions 2-9

Questions 10-17

Questions 18-25

Starburst:

Questions 26-33

- 1. In general, how satisfied or dissatisfied are you with your present vision?
- 1 Completely satisfied
- 2 Very satisfied
- 3 Somewhat satisfied
- 4 Somewhat dissatisfied
- 5 Very dissatisfied
- 6 Completely dissatisfied

The next set of questions will reference the following images and their labels.

Double image

Glare

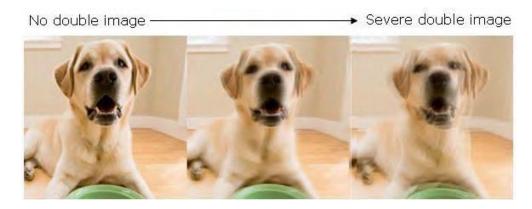

Halo

Starburst

INSTRUCTIONS: The next few questions are about *double images*, which some people call "ghost" or "shadow" images. By double images, we mean seeing a distorted or blurry visual image, such as the images shown below. These images may not represent exactly what you see and your symptoms may be more or less severe than what is shown.

- 2. In the last 7 days, have you seen any double images?
- 1 Yes, but ONLY when NOT wearing glasses or contact lenses
- 2 Yes, but ONLY when wearing glasses or contact lenses
- 3 Yes, when wearing AND when not wearing glasses or contact lenses
- 4 No, not at all
- 3. In the last 7 days, how often have you seen **double images** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 4. In the last 7 days, how often have you seen **double images** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 6 I always use glasses or contact lenses

- 5. In the last 7 days, how bothersome have the **double images** been when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 6. In the last 7 days, how bothersome have the **double images** been when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 6 I always use glasses or contact lenses
- 7. In the last 7 days, how much difficulty have you had doing your usual activities because you see **double images** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 8. In the last 7 days, how much difficulty have you had doing your usual activities because you see **double images** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 6 I always use glasses or contact lenses
- 9. When you use your best vision correction (glasses or contact lenses) do the double images you see:
- 7 I do not use glasses or contact lenses
- 1 Go away completely
- 2 Go away mostly
- 3 Go away a little
- 4 Not change
- 5 Get a little worse
- 6 Get a lot worse

INSTRUCTIONS: The next few questions are about *glare*. By glare, we mean difficulty seeing well when there are bright lights like headlights or sunlight, such as shown in the images below. These images may not represent exactly what you see and your symptoms may be more or less severe than what is shown.

- 10. In the last 7 days, have you noticed any **glare**?
- 1 Yes, but ONLY when NOT wearing glasses or contact lenses
- 2 Yes, but ONLY when wearing glasses or contact lenses
- 3 Yes, when wearing AND when not wearing glasses or contact lenses
- 4 No, not at all
- 11. In the last 7 days, how often have you noticed **glare** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 12. In the last 7 days, how often have you noticed **glare** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 6 I always use glasses or contact lenses

- 13. In the last 7 days, how bothersome has the **glare** been when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 14. In the last 7 days, how bothersome has the **glare** been when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 6 I always use glasses or contact lenses
- 15. In the last 7 days, how much difficulty have you had doing your usual activities because you noticed **glare** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 16. In the last 7 days, how much difficulty have you had doing your usual activities because you notice **glare** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 6 I always use glasses or contact lenses
- 17. When you use your best vision correction (glasses or contact lenses) does the **glare** you notice:
- 7 I do not use glasses or contact lenses
- 1 Go away completely
- 2 Go away mostly
- 3 Go away a little
- 4 Not change
- 5 Get a little worse
- 6 Get a lot worse

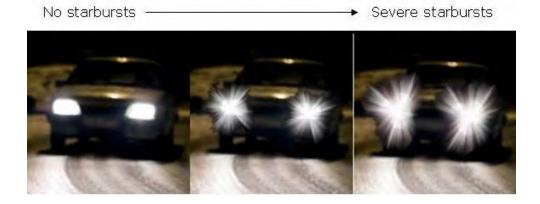

INSTRUCTIONS: The next few questions are about *halos*. By halos, we mean seeing a fuzzy cloud of light around lighted objects, such as the ones shown in the images below. These images may not represent exactly what you see and your symptoms may be more or less severe than what is shown.

- 18. In the last 7 days, have you seen any halos?
- 1 Yes, but ONLY when NOT wearing glasses or contact lenses
- 2 Yes, but ONLY when wearing glasses or contact lenses
- 3 Yes, when wearing AND when not wearing glasses or contact lenses
- 4 No, not at all
- 19. In the last 7 days, how often have you seen **halos** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 20. In the last 7 days, how often have you seen **halos** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 6 I always use glasses or contact lenses

- 21. In the last 7 days, how bothersome have the **halos** been when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 22. In the last 7 days, how bothersome have the **halos** been when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 6 I always use glasses or contact lenses
- 23. In the last 7 days, how much difficulty have you had doing your usual activities because you see **halos** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 24. In the last 7 days, how much difficulty have you had doing your usual activities because you see **halos** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 6 I always use glasses or contact lenses
- 25. When you use your best vision correction (glasses or contact lenses) do the halos you see:
- 7 I do not use glasses or contact lenses
- 1 Go away completely
- 2 Go away mostly
- 3 Go away a little
- 4 Not change
- 5 Get a little worse
- 6 Get a lot worse

INSTRUCTIONS: The next few questions are about *starbursts*. By starbursts, we mean *seeing rays of light coming out from lighted objects*, such as in the car headlights in the images below. These images may not represent exactly what you see and your symptoms may be more or less severe than what is shown.

- 26. In the last 7 days, have you seen any starbursts?
- 1 Yes, but ONLY when NOT wearing glasses or contact lenses
- 2 Yes, but ONLY when wearing glasses or contact lenses
- 3 Yes, when wearing AND when not wearing glasses or contact lenses
- 4 No, not at all
- 27. In the last 7 days, how often have you seen **starbursts** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 28. In the last 7 days, how often have you seen **starbursts** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Always
- 6 I always use glasses or contact lenses

- 29. In the last 7 days, how bothersome have the **starbursts** been when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 30. In the last 7 days, how bothersome have the **starbursts** been when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 Extremely bothersome
- 2 Very bothersome
- 3 Somewhat bothersome
- 4 A little bothersome
- 5 Not at all bothersome
- 6 I always use glasses or contact lenses
- 31. In the last 7 days, how much difficulty have you had doing your usual activities because you see **starbursts** when you are wearing your best vision correction (glasses or contact lenses)?
- 6 I do not use glasses or contact lenses
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 32. In the last 7 days, how much difficulty have you had doing your usual activities because you see **starbursts** when you are NOT wearing any vision correction (glasses or contact lenses)?
- 1 No difficulty at all
- 2 Very little difficulty
- 3 Moderate difficulty
- 4 A lot of difficulty
- 5 So much difficulty that I can no longer do some of my usual activities
- 6 I always use glasses or contact lenses
- 33. When you use your best vision correction (glasses or contact lenses) do the **starbursts** you see:
- 7 I do not use glasses or contact lenses
- 1 Go away completely
- 2 Go away mostly
- 3 Go away a little
- 4 Not change
- 5 Get a little worse
- 6 Get a lot worse

Scoring GuideRecode out-of-range values or n/a responses, if necessary, to missing (.)

| Item Numbers | Change original response category: | To recoded value of: | Note |
|---|---|----------------------------|---|
| 13, 14, 15, 16, 17, 18, 111, 112, 113, 114, 115, 116, 119, 120, 121, 122, 123, 124, 127, 128, 129, 130, 131, 132. | 6 | . (n/a) | "6" is the first response listed in survey for items 3, 5, 7, 11, 13, 15, 19, 21, 23, 27, 29, 31. |
| 19, 117, 125, 133 | 7 | . (n/a) | "7" is the first response listed in survey for items 9, 17, 25, 33. |

All scales are scored so that a higher score is more positive. To accomplish this, we rescore all items, when necessary, to be in the positive direction prior to combining them. Note that items that are **rev**erse-coded (e.g., I1 below) will have **_rev** appended to their name while other **rec**oded items (e.g., I2 below) will have **_rec** appended to their names to differentiate them from their original.

| Item Numbers | Change original response category | To recoded value of: | New Items |
|----------------------|--|----------------------------|---|
| 11,19, 117, 125, 133 | 1 | 6 | I1_rev, I9_rev, I17_rev, I25_rev, I33_rev |
| | 2 | 5 | |
| | 3 | 4 | |
| | 4 | 3 | |
| | 5 | 2 | |
| | 6 | 1 | |
| 12, 110, 118, 126 | 4 | 4 | I2_rec, I10_rec, I18_rec, I26_rec |
| | 1 | 3 | |
| | 2 | 2 | |
| | 3 | 1 | |

| Item Numbers | Change original response category | To recoded value of: | New Items | | |
|---|--|----------------------------|---|--|--|
| | , | | | | |
| 13, 14, 17, 18, 111, 112, 115, 116, 119, 120, 123, 124, 127, 128, 131, 132 | 1 | 5 | 13_rev, 14_rev, 17_rev, 18_rev, 11_rev, 112_rev, 115_rev, 116_rev, 119_rev, 120_rev, 123_rev, 124_rev, 127_rev, 128_rev, 131_rev, 132_rev | | |
| | 2 | 4 | | | |
| | 3 | 3 | | | |
| | 4 | 2 | | | |
| | 5 | 1 | | | |
| I3_rev ^{s1} , I4_rev ^{s1} , I5 ^{s1} , I6 ^{s1} , I7_rev ^{s1} , I8_rev ^{s1} , I11_rev ^{s2} , I12_rev ^{s2} , I13 ^{s2} , I14 ^{s2} , I15_rev ^{s2} , I16_rev ^{s2} , I19_rev ^{s3} , I20_rev ^{s3} , I21 ^{s3} , I22 ^{s3} , I23_rev ^{s3} , I24_rev ^{s3} , I27_rev ^{s4} , I28_rev ^{s4} , I29 ^{s4} , I30 ^{s4} , I31_rev ^{s4} , I32_rev ^{s4} | 1 | 1 | I3_rec, I4_rec, I5_rec, I6_rec, I7_rec, I8_rec, I11_rec, I12_rec, I13_rec, I14_rec I15_rec, I16_rec, I19_rec, I20_rec, I21_rec, I22_rec, I23_rec, I24_rec, I27_rec, I28_rec, I29_rec, I30_rec, I31_rec, I32_rec | | |
| | 2 | 2 | | | |
| | 3 | 3 | | | |
| | 4 | 4 | | | |
| | 5 | 5 | | | |
| | (screener s [#] =4) | 6 | | | |
| items have 5-response levels but are expanded to six categories using corresponding screener (s1=I2, s2=I10, s3=I18, s4=I26): if screener=4 (no symptom) then recode item to 6 (best possible response). | | | | | |
| I9_rev ^{s1} , I17_rev ^{s2} , I25_rev ^{s3} , I33_rev ^{s4} | 1 | 1 | 19_rec, l17_rec, l25_rec, l33_rec | | |
| | 2 | 2 | | | |
| | 3 | 3 | | | |
| | 4 | 4 | | | |
| | 5 | 5 | | | |
| | 6 | 6 | | | |
| | (screener s [#] =4) | 7 | | | |

items have 6-response levels but are reverse coded and expanded to 7 categories using corresponding screener (s1=I2, s2=I10, s3=I18, s4=I26): if screener=4 (no symptom) then recode to 7 (best possible response).

Transform items to 0-100 possible range (i.e., subtract minimum possible, divide by possible range, and them multiple by 100). Then combine as follows.

| | # of items | After recodes per above instructions, calculate average of items for each scale |
|------------------------------------|------------|---|
| New measures of visual aberrations | | |
| Double image | 8 | I2_rec, I3_rec, I4_rec, I5_rec, I6_rec, I7_rec, I8_rec, I9_rec. |
| Glare | 8 | |
| Haloes | 8 | l18_rec, l19_rec, l20_rec, l21_rec, l22_rec, l23_rec, l24_rec, l25_rec. |
| Starburst | 8 | l26_rec, l27_rec, l28_rec, l29_rec, l30_rec, l31_rec, l32_rec, l33_rec. |
| Measure of satisfaction | | |
| Satisfaction with vision | 1 | I1_rev. |
