

Effective July 1, 2020, the Centers for Medicare & Medicaid Services (CMS) implements its current Correct Coding Initiative Edits (CCI), Version 26.2. Although there are minimal edits impacting ophthalmology this quarter, glaucoma codes received new bundles.

To see all CCI edits, the Academy provides a link to the CMS site on the [coding updates and resources page](#). The [Coding Coach and Retina Coding Complete Reference Guide](#) include bundling edits, however you can find current edits in the Coding Coach online.
