

tyrvaya[®]
(varenicline solution)
nasal spray 0.03 mg

**Dry eye starts with
tear film disruption.¹**

**Treat by activating
tear film production.²**

EXPLORE A DIFFERENT PATH TO TREATING DRY EYE DISEASE.²

Tyrvaya[®], the first and only nasal spray approved to treat the signs and symptoms of dry eye, is believed to activate the trigeminal parasympathetic pathway via the nose, resulting in increased tear film production.² The exact mechanism of action is unknown at this time.

Watch Tyrvaya in action at [Tyrvaya-pro.com](https://www.tyrvaya-pro.com).

INDICATION

Tyrvaya[®] (varenicline solution) nasal spray is indicated for the treatment of the signs and symptoms of dry eye disease.

IMPORTANT SAFETY INFORMATION

The most common adverse reaction reported in 82% of patients was sneezing. Events that were reported in 5-16% of patients were cough, throat irritation, and instillation-site (nose) irritation.

Please see Brief Summary of Prescribing Information on the adjacent page and the full Prescribing Information at [Tyrvaya-pro.com](https://www.tyrvaya-pro.com).

GET READY FOR CHICAGO • PART 3 OF 6

EVENTS

2022 Orbital Gala to Be Held at the Adler Planetarium

Connect with your colleagues at the 19th annual Orbital Gala at the Adler Planetarium in Chicago on Sunday, Oct. 2. The Gala will feature the classic silent auction with popular items such as conversations with experts, travel, wine, and much more.

A night at the Adler Planetarium.

The Gala's venue, the Adler Planetarium, was the Western Hemisphere's first planetarium when it was founded in 1930 by businessman and philanthropist Max Adler. Today, the planetarium hosts more than half a million visitors each year.

At the Orbital Gala, explore the Clark Family Welcome Center, which features unique architecture and vibrant lighting, thanks to 125 LED lights which, together, can produce more than two billion different lighting combinations. You'll also have the chance to dine under the 36-foot-high domed ceiling in the Grainger Sky Theater. And when you step out at the end of the night, you'll be treated to a view of Lake Michigan and the Chicago skyline from the Adler Planetarium's Northerly Island location.

Celebrate Special Honoree Dr. Day.

Attending the 2022 Orbital Gala will

2022 ORBITAL GALA. This year's Orbital Gala will be held at the Adler Planetarium. Guests will have the chance to enjoy the historic and unique venue, which features LED light shows, a domed sky theater, and a view of Chicago's skyline.

give you the opportunity to celebrate Special Honoree Susan H. Day, MD, for her numerous contributions to ophthalmology. During her remarkable career, Dr. Day has served as president of the Academy, the American Ophthalmological Society, the Association of University Professors of Ophthalmology, and the American Association for Pediatric Ophthalmology and Strabismus. She has also chaired numerous other organizations and committees. Learn more about Dr. Day at aao.org/tribute.

Starting June 15, you can purchase tickets for the 19th annual Orbital Gala at aao.org/gala.

PLAN YOUR TRIP

AAO 2022: Four Months Away

Take advantage of intensive education at AAO 2022: Hear new perspectives, learn clinical pearls, and improve your practice. AAO 2022 will be held at the McCormick Place Convention Center in Chicago from Friday, Sept. 30, to Monday, Oct. 3. While you're there,

don't miss out on Subspecialty Day meetings, which will take place on Friday, Sept. 30, and Saturday, Oct. 1.

Don't wait. Early registration for AAO 2022 begins June 15 and ends July 27, so plan your trip before the price increases. Book your preferred hotel room and start reviewing the program early. See next page for more details and check this section of *EyeNet* each month for event highlights and important notices.

Explore Chicago

It's time to book tickets to get the best seats in town for Chicago's theater productions, live music, and baseball games. You can also make plans to meet a penguin up close at the Shedd Aquarium or view the Field Museum's Evolving Planet exhibition, which moves visitors through 4.5 billion years of a changing Earth. And don't forget to make time for a stroll down the Chicago Riverwalk for a unique view of some of the city's most iconic buildings. Chicago has been voted the Best Big City in the United States for the fifth year in a row by readers in *Condé Nast Traveler's* Read-

AMERICAN ACADEMY
OF OPHTHALMOLOGY®

ers' Choice Awards, so make the most of your spare time at AAO 2022.

Find more at aao.org/chicago.

Registration Opens June 15

For Academy and AAOE members, AAO 2022 registration and ticket sales open on June 15. Nonmembers can register starting June 29.

What's included. AAO 2022 registration includes the Opening and Closing Sessions, all instruction courses, clinical sessions, Skills Transfer lectures, videos, papers, poster presentations, the Expo, and Industry Showcases. It also provides access to AAO 2022 Virtual.

Extra events. Skills Transfer labs and AAOE Practice Management Master Classes are ticketed events; tickets can be purchased during registration. Note that Subspecialty Day and AAOE Coding Sessions require separate registration.

Subspecialty Day. Registration for the in-person Subspecialty Day meetings (Friday, Sept. 30, and Saturday, Oct. 1) includes the flexibility to float among Subspecialty Day meetings taking place the same day. Also included are detailed course syllabi available online, meals, and access to the Subspecialty Day Virtual content from that same day.

It pays to register early. Registration fees for most registration categories and ticket fees increase after July 27. Ticketed sessions can fill up fast, so don't delay. (See categories and fees details at aao.org/annual-meeting/registration/categories-and-fees.)

Can't make it to Chicago this year? Register for AAO 2022 Virtual, Subspecialty Day Virtual–Friday, Subspecialty Day Virtual–Saturday, or all three. You will be able to watch sessions streaming live, view sessions that were recorded in Chicago, and see on-demand–only content that was developed specifically for the virtual meeting.

Find more information, including pricing, at aao.org/registration.

Reserve a Hotel Room

Hotel reservations open June 15 for Academy or AAOE members and June 29 for everyone else. Group reservations for international attendees are also available.

Be sure to book your hotel room

in Chicago for check-in on Friday, Sept. 30, in order to catch the Opening Session at 5:00 p.m. (or Thursday, Sept. 29, to attend Friday Subspecialty Day meetings) and plan to stay through the Closing Session, which ends at 5:00 p.m. Monday, Oct. 3.

When booking a hotel room with the Academy's official hotel reservation provider, Expovision, you will always get the best rates and can earn hotel loyalty points. You will not be charged a deposit on the day that you book your hotel room. Instead, when you use your credit card information to guarantee your reservation, the hotel will charge your card approximately two to three weeks prior to arrival.

Find more information and an interactive map online at aao.org/hotels starting June 15.

Avoid Scams During Booking and Registration

When registering for the annual meeting or booking a hotel for your stay, you may encounter fraudulent companies impersonating the Academy or falsely suggesting a relationship with the Academy. The organizations might contact you directly via email, or you might find them on the internet. The Academy does not partner with third-party organizations for meeting registration. You should register with the Academy's only official hotel reservation provider, Expovision, which is accessible through the Academy's site at aao.org/hotels.

We need your help to stop fraud! If you believe that you may have been the victim of registration or hotel fraud, or an attempt at fraud, please report your experience to the Academy. Email the following information to meetingfraud@aao.org:

- name (required),
- email address (required),
- URL of fraudulent website or email address of fraudulent email (required),
- text of website or email (optional),
- additional details (optional), and
- pictures of the website, your email chain with the fraudulent company, and any invoices or other attachments sent by the fraudulent company (optional but extremely helpful).

PROGRAM & ACTIVITIES

Search the Program in the Mobile Meeting Guide

The Mobile Meeting Guide (aao.org/mobile), sponsored in part by Regen-eron and available starting June 15, is your go-to resource for AAO 2022. You'll be able to review the program and search exciting topics ranging from artificial intelligence and gene therapy to monoclonal antibody treatments and myopia.

No need to visit the app store.

The Mobile Meeting Guide is a website designed to work on any mobile device, tablet, laptop, or computer. For easy access, add the Mobile Meeting Guide to your home screen.

No need to log in. You do not need to sign in to browse the program. Type your inquiry into the search bar or use the filters to find sessions by day, topic, special interest, or presenter. You will find full course information, abstracts, and (when available) handouts.

When you are ready to build a schedule, sign in with your Academy account credentials.

Begin exploring on June 15 at aao.org/mobile.

SUBSPECIALTY DAY

Subspecialty Day Previews

This month, program directors from two Subspecialty Day meetings preview some of this year's highlights.

View the schedules at aao.org/mobile starting June 15.

GLAUCOMA 2022: Second to None Glaucoma Care From the Second City
Program directors: Kelly Walton Muir, MD, and Teresa C. Chen, MD.

When: Friday, Sept. 30.

Directors' preview. The 2022 Glaucoma Subspecialty Day will include a crossover session on neuro-ophthalmology, with a focus on updating both general ophthalmologists and glaucoma specialists on the latest diagnostics and treatments in neuro-ophthalmic conditions that are commonly encountered in glaucoma practice. For example, one presentation and panel

discussion will examine how thyroid eye disease and other conditions that exacerbate glaucoma can be remedied with new nonsurgical therapy. This will be followed by updates on the diagnosis and treatment of multiple sclerosis optic neuritis as it relates to glaucoma. We will also discuss the subtypes of glaucoma commonly seen by neuro-ophthalmologists and referred to glaucoma specialists. In addition, there will be presentations on how conditions created by glaucoma treatments are diagnosed and remedied by neuro-ophthalmologists. Guidance will be offered on when to image the glaucoma patient. Finally, there will be a presentation highlighting the value of visual field testing and imaging in helping differentiate glaucoma from nonglaucomatous conditions. Overall, this session will be an educational and informative component of Glaucoma Subspecialty Day 2022!

The Glaucoma Subspecialty Day meeting is organized in conjunction with the American Glaucoma Society.

UVEITIS 2022: “Now the Future We Foresee”

Program directors: Russell W. Read, MD, PhD, and Lucia Sobrin, MD.

When: Friday, Sept. 30.

Directors’ preview. “Now the Future We Foresee,” a quote from the poem “New Day’s Lyric” by Amanda Gorman, was chosen as the subtitle for Uveitis Subspecialty Day 2022, as Ms. Gorman’s work is an ode to lessons learned from the past while simultaneously looking toward a better future. For this first in-person Uveitis Subspecialty Day since the beginning of the COVID-19 pandemic, the planning committee has taken the opportunity to look to the future of uveitis care and provide an engaging day of education appropriate for all ophthalmologists.

Building on the success of past Uveitis Subspecialty Days, the 2022 edition will continue the highly successful format of gradually increasing the complexity of discussion within each session. Offering something for everyone who manages uveitis patients,

the day begins with an opening session that focuses on the fundamentals of the approach to the uveitis patient. This is an ideal introduction for the nonuveitis subspecialist (or a refresher for the more experienced practitioner). The day continues with sessions targeted to the various anatomic categories of uveitis, each providing an overview lecture of the salient features of the category followed by illustrative cases that highlight the key points of each. Case presenters will be joined by expert discussants who will provide additional context and pearls of wisdom from their years of experience. Following the anatomic sessions, two series of lectures are devoted to covering all aspects of the treatment of uveitis and management of the complications of ocular inflammation. The day concludes with “Hot Topics,” presentations that will highlight late-breaking news in the world of uveitis.

Uveitis Subspecialty Day is organized in conjunction with the American Uveitis Society.
