Academy Perspectives on PRF Reporting

• In a February/March 2021 Survey of AAO members: 72% of respondents indicated to have received Provider Relief Funds (PRF) in 2020.

• We have heard from AAO members that PRF reporting is more challenging than expected.

• We strongly encourage practices and ophthalmologists who need to report to begin the process well in advance of the deadlines.
Who Is Required to Report & When

- Only those who received Provider Relief Fund payments exceeding $10,000 within a given payment period need report on their use of those funds.

- For practices that received more than $10,000 total in Provider Relief Fund payments between April 10 and June 30, 2020, reporting started on July 1.

- If you must report on payments received in that first period, you have until Sept. 30 to do so.

- If you received Provider Relief Fund Payments after June 30, 2020, any necessary reporting would occur in periods 2-4.
