This year’s Congressional Advocacy Day features in-person events and meetings on Capitol Hill and builds on our successful efforts to protect sight through action at the federal level. Our efforts will highlight the Medicare payment burdens that impact our profession and we will be urging members of Congress to support prior authorization reform, vision research funding, and ensuring Veterans receive the best quality of care. Before we make our way to Capitol Hill, you will be fully trained on how to best represent our profession to members of Congress and their staff. All Academy members are urged to take part in this critical event to bring your voice to these important issues. Only you can protect your patients, practice, and profession.

#### Metro to Capitol Hill

Members will be provided with Metro SmarTrip cards to accommodate their trip to and from Capitol Hill. A map of the Metro system and Capitol Hill is provided in the “Getting Around D.C.” section. Please allow at least 45-60 minutes to get to the Hill before your meetings.

#### Meetings with Members of Congress and Staff 8:30 am – 3:00 pm

Appointments with your members of Congress have been made for you based on your home address provided at registration. Please check your schedule to ensure that you are on the Hill in time for your meetings and allow an extra 20 minutes for security checks. For questions about your appointments, contact Dash Delan at ddelan@aoa.org or call 202.587.5823. Return from Capitol Hill to the Westin Downtown Hotel by Metro.

Contact Dash Delan immediately if you will not be available to attend your scheduled meeting. Missed appointments reflect poorly on the Academy and make scheduling future meetings more difficult.

**Moderators:**  
John T. McAllister, MD – Secretary for Federal Affairs, American Academy of Ophthalmology  
Michael X. Repka, MD, MBA, President-Elect; Medical Director, Government Affairs, American Academy of Ophthalmology

While fee-for-service may cover only half of Medicare beneficiaries, the power of the payment and coverage policies set by the Centers for Medicare and Medicaid Services remains strong. The coverage policies developed through Medicare’s national and local coverage determination processes are heavily utilized by both public and commercial payors. The process for Medicare’s coverage development has changed significantly in recent years, relying less upon physician experts. Join us to hear how the ophthalmic community is advocating in response to overly restrictive coverage policies and advocating for patient access to sight-saving care.

#1. PREVENTING REVENUE CYCLE MANAGEMENT CATASTROPHES
#2. PRIVATE EQUITY, CO-MANAGEMENT, ETHICS, AND THE IMPACT ON ADVOCACY FOR OPHTHALMOLOGISTS

HEARING #1. PREVENTING REVENUE CYCLE MANAGEMENT CATASTROPHES
Potomac Ballroom: Salons 1 & 2

Moderator: Ravi D. Goel, MD - Senior Secretary for Ophthalmic Practice, American Academy of Ophthalmology

The cornerstone of a financially stable and thriving ophthalmic practice is a streamlined revenue cycle. Achieving success requires ophthalmologists to take an active role in monitoring performance, identifying threats, and the ability to rectify effectively. Successful strategies will be explored, including how to pivot from a high-level dashboard report to targeted data elements that can prompt actionable steps to avoid revenue cycle catastrophes. Attendees will receive access to a comprehensive Revenue Cycle Key Performance Indicators (KPIs) toolkit to implement into their practice.

10:15 am – 10:20 am  Introduction

Alan E. Kimura, MD, MPH – Board Member, American Academy of Ophthalmic Executives (AAOE); Past President, Colorado Retina

11:30 am – 11:45 am  Q&A

11:45 am  End of Session
Advocacy, both on the federal and state level, is critical to ensure the highest quality eye care for patients, and the Academy's mission to safeguard patients and advance the profession of ophthalmology. In this session, we will be examining challenges and benefits ophthalmologists may face when they become acquired by—or proactively join—a private equity group, and the impact that private equity arrangements and co-management have on the Academy's advocacy agenda to protect the highest standards of surgical eye care. It is critical that all ophthalmologists acquired or employed by private equity understand their rights to advocate on behalf of their profession and their patients. This session will also explore the ethical and legal landscape for private equity group employed ophthalmologists. The goal of this session will be to examine positives and negatives of private equity and the impact that it may have on an Academy member’s ability to speak publicly in support of Academy legislative and/or regulatory priorities, as well as potentially inadvertent violations of the Academy’s Code of Ethics.

10:15 am – 10:25 am Introduction
Sidney K. Gicheru, MD – Associate Secretary for State Affairs, American Academy of Ophthalmology

10:25 am – 10:35 am Legal Overview of Free Speech Rights for Privately Employed Ophthalmologists – the First Amendment and Employment Contracts
Michael W. Stevens, JD – General Counsel and Vice President, Legal Affairs, American Academy of Ophthalmology

Green Ophthalmology: From Passion to Policy to Impact

Moderator: Jeff H. Pettey, MD, MBA – Chair, Committee on Sustainability in Ophthalmology, American Academy of Ophthalmology; Vice-Chair of Clinical Affairs, Associate Professor at the University of Utah Department of Ophthalmology and Visual Sciences

The field of ophthalmology stands at a critical juncture where sustainability and environmental responsibility are not just global concerns but integral aspects of healthcare. The session aims to harness our community’s collective energy and dedication towards creating a more sustainable future in ophthalmology. This session is designed for the diverse attendees of the MYF closing session, a group passionate about their profession and advocating for its future. By bringing together these highly motivated individuals, we aim to transform individual passion into collective action, leading to tangible impacts in the field of ophthalmology. Table discussions will be coordinated at the end of the session.
