

## Quality Measures – Benchmarks Table

Specifications:

Classifications: There are three different classifications of quality measures:

1. eCQM — Available to those that are EHR integrated with the IRIS® Registry.
2. CQM — Available to report by those EHR integrated and those that are reporting manually through the IRIS Registry Web Portal.
3. Academy Measures (QCDR) — Developed by the Academy. Prefaced with “IRIS”. Can only be reported via the IRIS Registry, either through integration or manual entry. Not available to those reporting claims-based or directly to CMS through their EHR. All the IRIS Registry QCDR Academy Measures are ophthalmology specific.

Selecting measures should factor in the following:

1. Is the measure available for your reporting method (EHR integration, manual web portal entry)?
2. What range of measure achievement points can you earn?
  - a. Measures can carry between 3.0 and 10.0 achievement points, which when added together, are used to calculate your MIPS score in the quality performance category. <sup>2</sup>
  - b. Measure achievement points are awarded based on your performance rate and where it falls in the measures’ benchmarks.
  - c. Some measures don’t allow more than 7.0 measure achievement points (ex. capped measures).
  - d. Some have gaps in the achievement points available (stalled measures).
  - e. Some measures aren’t benchmarked which means there’s no guarantee of more than 3.0 measure points when reported fully.
3. Your expected performance rate and where that falls in the measure’s benchmark table for your reporting method.

1. The following pages list all the available measures across reporting methods. If you read this table on the Academy’s website, you can click the appropriate link in the measure to bring up the specification detail.

<a href="#">EHR Integration via the IRIS Registry</a>
<a href="#">Manual Reporting via the IRIS Registry</a>
<a href="#">Claims Based Reporting</a>

2. In the remarks column for each measure is a summary of the points available.

<a href="#">EHR Integration via the IRIS Registry</a>	3-10 Achievement Points
<a href="#">Manual Reporting via the IRIS Registry</a>	3-7 Achievement Points
<a href="#">Claims Based Reporting</a>	3-4.9 Achievement Points or, with a 100% Performance Rate, 10 Achievement Points

- 3-10 Achievement Points ...

Achievement Point Range	3.0-3.9	4.0-4.9	5.0-5.9	6.0-6.9	7.0-7.9	8.0-8.9	9.0-9.9	10.0
Performance Rate	0.04%- 54.32%	54.33%- 66.66%	66.67%- 75.33%	75.34%- 81.59%	81.6%- 87.17%	87.18%- 91.36%	91.37%- 95.07%	>= 95.08%

...can earn more points than...

- 3-7 Achievement Points...

Achievement Point Range	3.0-3.9	4.0-4.9	5.0-5.9	6.0-6.9	7.0
Performance Rate	0.02%- 83.72%	83.73%- 91.27%	91.28%- 94.9%	94.91%- 96.99%	>= 97.0%

...which can earn more points than....

- 3-4.9 Achievement Points, unless a perfect score - in which case 10 achievement points are possible.

Achievement Point Range	3.0-3.9	4.0-4.9						10.0
Performance Rate	60.0%- 95.99%	96.0%- 99.99%	--	--	--	--	--	100%

- Not Benchmarked

Not Benchmarked

When a not benchmarked measure is fully reported, while you'll definitely earn 3.0 measure points, if enough other practices report fully on the measure, CMS will benchmark it. That means you *could* end up earning more achievement points than other measures you report. You just won't know the impact until your final score is released.

This is why the Academy encourages you to report extra QCDR AAO Measures that aren't benchmarked. Doing so can't hurt, *and it may help significantly*. You should not submit such measures with the expectation you'll earn more than 3.0 measure points. So, choose six "core" measures that you know allow you to score as high as possible and hedge your quality performance MIPS score by reporting some unbenchmarkd QCDR AAO Measures.

After the reporting year is over, and you're preparing to submit your MIPS data through the IRIS Registry, your quality measure performance will be evaluated and the IRIS Registry will estimate your best score based on all these factors (performance rate, benchmark, bonus points available etc.). The only uncertainty is if you'll earn a score higher than 3.0 achievement points on measures without benchmarks.

The measure specifications for those who elected to purchase this preparation kit, follow. They are organized by eCQMs, then CQMs, and lastly IRIS Registry QCDR Academy Measures.
