

Is glaucoma part of your family tree?
If so, talk to your children about it.

If you suffer from glaucoma, there's a chance your children will too.
Talk to your ophthalmologist about your family's risks.

Learn more at [GetEyeSmart.org](https://www.geteyesmart.org)

Brought to you by your ophthalmologist—your Eye M.D.—the only eye care professional medically trained to diagnose and treat the entire range of eye diseases, infections and injuries.
