Article Guidance

Article Text:

This First Coast Billing and Coding Article for Local Coverage Determination (LCD) L33670 Fundus Photography provides billing and coding guidance for frequency limitations as well as diagnosis limitations that support diagnosis to procedure code automated denials. However, services performed for any given diagnosis must meet all of the indications and limitations stated in the LCD, the general requirements for medical necessity as stated in CMS payment policy manuals, any and all existing CMS national coverage determinations, and all Medicare payment rules.

Refer to the LCD for reasonable and necessary requirements and limitations.

The redetermination process may be utilized for consideration of services performed outside of the reasonable and necessary requirements in the LCD.

Documentation Requirements

1. All documentation must be maintained in the patient's medical record and made available to the contractor upon request.
2. Every page of the record must be legible and include appropriate patient identification information (e.g., complete name, dates of service[s]). The documentation must include the legible signature of the physician or non-physician practitioner responsible for and providing the care to the patient.
3. The submitted medical record must support the use of the selected ICD-10-CM code(s). The submitted CPT/HCPCS code must describe the service performed.
4. Office records/progress notes must document the complaint, symptomatology, or reason necessitating the test and must include the examination results/findings.
5. Photo documentation may be one of the following types: reproducible, slides, prints, digital photography, computerized analysis, or stereo photos.
6. Medical record documentation must clearly indicate rationale which supports the medical necessity for performing fundus photography and posterior segment SCODI on the same day on the same eye. Documentation should also reflect how the test results were used in the patient's plan of care.

Utilization Guidelines

In accordance with CMS Ruling 95-1 (V), utilization of these services should be consistent with locally acceptable standards of practice.

Compliance with the provisions in LCD L33670, Fundus Photography may be monitored and addressed through post payment data analysis and subsequent medical review audits.
